**SEPTEMBER-2019**

**CONDUCTED BY**

**YOUTH RED CROSS OF MIT**

**VENUE: RLHC CONFERENCE HALL**

**DATE: 24-09-2019**

## BLOOD DONATION:

The most important and lifesaving activity of Youth Red Cross-MIT is **BLOOD DONATION**. Our organization pays much importance and endurance to this part of activity, which saves human lives. Our mission is to save mankind by lending our support to those who are ill or on the verge of death just due to the lack of blood.

Our motto goes this way-“**Udhiram Thandhu Uyirai Parisali**”.

A majority of deaths happening daily around the world are mainly due to accidents. Apart from this, child deliveries, blood cancer, or any form of surgery requires enormous units of blood. We all know that BLOOD is of great importance and its necessity is so vital that one's life is mostly dependent on it. On those difficult circumstances, we pledge to stand by the side of the needy patients.

## **WHAT DO WE DO?**

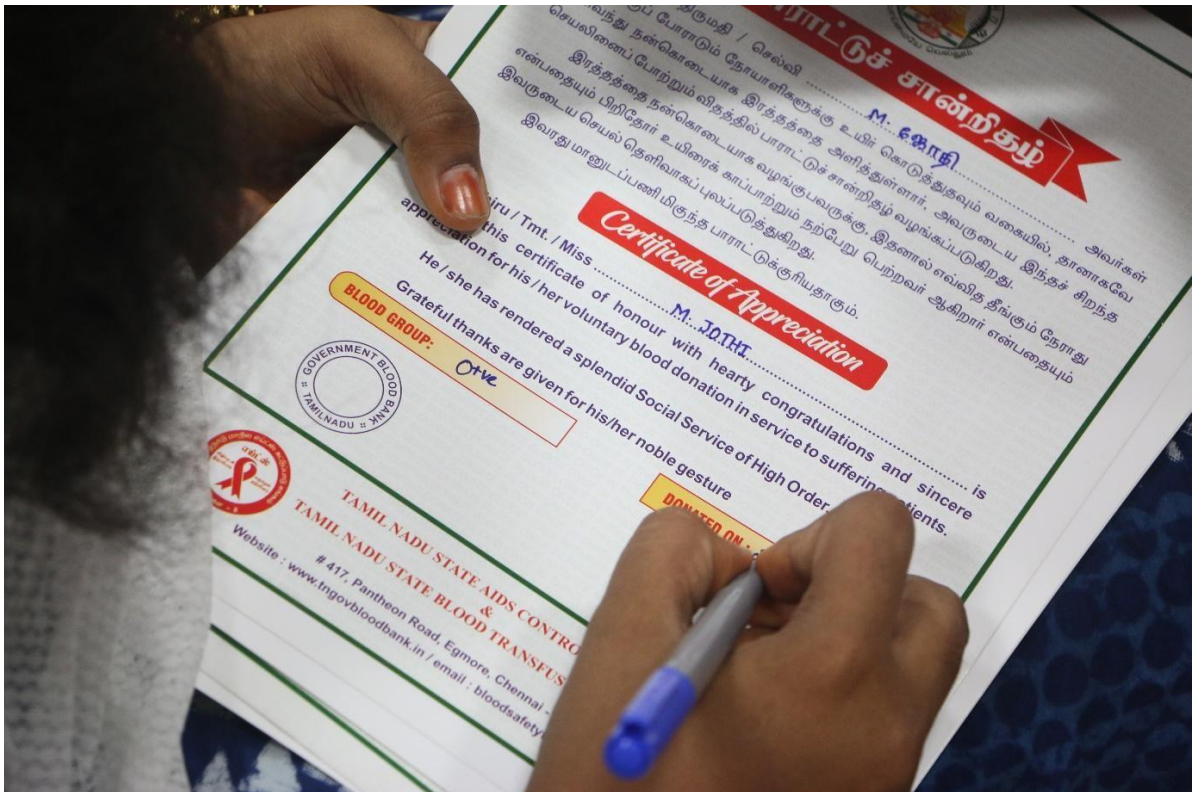

We get requirement calls from blood banks and hospitals like MMC, MIOT, MMM, Hindu Mission, Vijaya Hospitals, GH-Sanatorium, Porur Ramachandra, Lions Club of Madras, in and around Chennai at any time. Our work first starts with checking the genuineness of the information when we get a blood request message from a number. Once it is confirmed, we check the database of our students for available donors of the required blood group and send them to the place from where we get the request as much quick as possible. Apart from this regular activity, we organized a BLOOD DONATION CAMP, on behalf of YRC-MIT on 24-09-2019 which turned out to be a great success with the participation of donors and volunteers.

### **BLOOD DONATION CAMP:**

Blood Donation Camp was conducted on the **24<sup>th</sup> September 2019** at Rajam Lecture Hall Complex -Conference Hall, MIT Campus, Chrompet, Chennai-44. The camp was organized by YRC-MIT, Chrompet in collaboration with **Government General Hospital, Chrompet, Chennai.**

Interested students and teaching & non-teaching staff members of our college actively participated in the camp and volunteered to donate a unit of blood. Doctors, nurses and blood bank team from Government General Hospital, Chrompet came directly to our college premises and took after the responsibility of collecting units of blood in blood bags.

They encouraged people to donate blood. The process of collecting blood units started sharply at 09:00 AM and lasted till 01.00 PM, during which a sum of 79 units were collected in the bags. **Of these 79 units, 67 units were given by students of our college (Boys- 63; Girls-4) and 9 units were given by teaching and nonteaching staff, 3 MIT hostels mess Workers** where all were positive blood groups, comprising of A+ve, B+ve, AB+ve and O+ve.

Persons with rare blood groups (Negative groups) were restricted from donating blood at the camp, so that they can be used for emergency situations when we get a direct request from the patient or the hospitals.
